

# SnapCats Roadmap

An AI-powered Gaming Ecosystem with Token Utility

At SnapCats, we believe in the power of community and the endless possibilities that gaming can offer. Our mission is to create an immersive, dynamic, and ever-evolving gaming ecosystem where players can explore, compete, and connect like never before. Guided by the vision of our dedicated developers and the passionate feedback from our community, we are thrilled to present the roadmap for the next 24 months.

This journey began with a unique and empowering community takeover, marking a new era where players directly influence the future of their gaming ecosystem. Our innovative gaming hub, modeled after a futuristic space station, serves as the central point of exploration, with corridors leading to a diverse selection of games. From the heart-pounding action of our first-person shooter to the casual fun of tank battles, kart races, and slot machines, there's something for everyone.

As we progress, our commitment to integrating Snapcat tokens ensures that players can experience the full potential of our ecosystem. Whether unlocking exclusive in-game items, purchasing NFTs with real utility, or accessing early releases, Snapcat tokens are at the core of our interactive and rewarding experience. In addition, we're incorporating advanced AI technologies to enhance gameplay, utilizing AI-driven NPCs to create more dynamic and engaging interactions.

We're excited to embark on this journey with you, sharing milestones such as the launch of our game lobby, the release of our website and NFT marketplace, and the debut of our merchandise line. Through alpha and beta testing phases, your invaluable feedback will shape the final product, making SnapCats not just a game but a thriving community.

Thank you for joining us as we build the future of gaming, one milestone at a time. With cutting-edge AI integration and a token-powered ecosystem, we can create a universe that celebrates creativity, competition, and community spirit. Welcome to SnapCats, where the adventure never ends. 🚀

---

# ROADMAP

## April 7, 2024: Community Takeover

- Community gains control over key platforms: Twitter, Telegram, DexTools, and CoinGecko.

## May 2024: Social and Listing Control Completion

- We successfully transitioned Snapcat's social media and listings to community management.

## June 2024: Game Lobby Environment Release

- Launch of the central gaming lobby modeled after a futuristic space station.
- Initial release of the first-person shooter (FPS) demo.
- Token Utility: Early access to the game lobby and FPS demo for Snapcat token holders.
- AI Integration: Introduction of AI-driven NPCs to create more engaging and challenging interactions within the FPS game.

## July 2024: Casual Games Release

- Launch of initial casual games:
  - **SnapCats Tanks:** Engage in thrilling tank battles.
  - **SnapCats Karts:** Race to the finish in this fast-paced kart game.
  - **SnapCats Slots:** Try your luck with our slots game.
- Token Utility: Use Snapcat tokens to unlock exclusive in-game items and enhancements.
- AI Integration: Utilization of AI to enhance game mechanics and provide a more personalized gaming experience.

## August 2024: Website and NFT Marketplace Launch

- Launch of a comprehensive website featuring:
  - NFT marketplace where community members can connect their wallets and purchase NFTs with in-game utility.
  - Snapcat tokens available for purchase.
- Token Utility: Purchase NFTs with Snapcat tokens, which provide in-game benefits such as unique skins, power-ups, and access to exclusive content.

## Q3 2024: Merchandise Launch

- Snapcats introduces themed merchandise, including t-shirts, backpacks, and toys.

- Token Utility: Discounts and special editions of merchandise are available for Snapcat token holders.

#### **Q4 2024: Alpha Release and Initial Testing**

- Alpha release of the entire first-person shooter game.
- Alpha release of Snapcat's Web 3.0 Wallet extension.
- The community participates in the testing phase to gather feedback and identify bugs.
- Launch of new casual games based on community preferences.
- Token Utility: Token holders get early access to the alpha release and can participate in exclusive alpha testing events.
- AI Integration: Advanced AI testing for NPC behavior and game dynamics, incorporating community feedback for continuous improvement.

#### **Q1 2025: Beta Testing and Refinement**

- Beta release of the FPS game with enhanced features and improvements based on alpha testing feedback.
- Beta release of Snapcat's Web 3.0 Wallet extension.
- Continued development and testing of additional casual games.
- Implementation of community-suggested features and improvements.
- Token Utility: Beta testers are rewarded with exclusive Snapcat NFTs based on their feedback and participation.
- AI Integration: Continued refinement of AI-driven features to enhance player experience and game realism.

#### **Q2 2025: Full Game Launch and Ecosystem Expansion**

- The official launch of the full FPS game.
- Release of Snapcat's Web 3.0 Wallet.
- Introduction of new casual games and ongoing updates to existing games.
- Expansion of the gaming ecosystem, integrating more community-driven features and events.
- Token Utility: In-game purchases, subscription services, and event participation fees can be paid with Snapcat tokens. Exclusive in-game content and special events are available for token holders.
- AI Integration: Deployment of sophisticated AI systems for NPCs and game environments to ensure a continuously evolving and immersive gaming experience.

With SnapCats, the future of gaming is brighter than ever. Join us in creating a groundbreaking gaming ecosystem that leverages the latest AI technologies and the power of community-driven development. Together, we can shape the next era of interactive entertainment.
